## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-60 are rejected under 35 U.S.C. 102(b) as being anticipated by Owens et al. (US 6,164,638).

Owens et al. teaches apparatus comprising: an automated banking machine including a first paper moving device, a second paper moving device, a paper testing arrangement, and a currency dispenser operative to dispense currency, wherein the paper testing arrangement is operative to test the ability of paper in the automated banking machine to be moved by the first paper moving device responsive to both operation of the second paper moving device to move the paper and non operation of the second paper moving device, wherein the automated banking machine is operative to generate at least one fault signal responsive to at least one of the inability of the paper to be moved by the first paper moving device despite operation of the second paper moving device, and the ability of the paper to be moved by the first paper moving device despite non operation of the second paper moving device.
